

# Senior Backend Developer (Investment Banking)

Astomicon is a modern and dynamic IT company based in Prague-Karlin. We provide software and consulting solutions to two of the biggest investment banks in the world.

Do you enjoy taking on new challenges and responsibility in a fast-paced environment? Are you a intelligent, creative and dynamic person, who enjoys working in an international environment?

If so, get in touch with us! Become part of our growing success story and shape your future at Astomicon. We are continually strengthening our consulting team with new professionals.

## What you will be doing:

- Designing and developing a new high-performing system providing product data for multiple websites and other upstream systems
- Setting-up and improving CI/CD pipeline
- Creating automated tests improving the quality of your solution
- Reviewing the code of your peers
- Discussing with other senior engineers, business analysts and architects from your and other teams the technical solution
- Working in an agile environment

## What we're looking for:

- A passion for backend development (C#.NET, MS SQL incl. T-SQL, SSIS, REST/SOAP)
- Exceptional motivation, and willingness to learn and perform
- Excellent analytical and conceptual skills
- An independent, entrepreneurial and structured way of working
- Good grasp of the English language, both written and spoken;
- Interest in working in multinational environment

## Nice to have skills:

- Prior experience with investment banking
- Good spoken and written Czech, German or French
- Good knowledge in WCF, .NET Core, Containers, Clean Code/SOLID, ASP.NET MVC, TFS, Angular, Cloud platforms (Azure)
- Experience with agile development process/SCRUM

## We Offer:

- Outstanding compensation
- Work within a senior team of SW development experts
- 25 days of vacation
- Referral bonus program
- Possibility of Home Office
- A desk in the private office in the coworking center Work Lounge
- Possibility to work on ICO (Czech Trade License)
